

Thank you for choosing InSPArations.

Body Therapies

Salt Glow Treatment (allow 30 minutes)\$55
 A special mixture of sea salt, herbs and minerals is blended and massaged onto your body, gently exfoliating and buffing your skin to a smooth finish. Next, your entire body is rinsed under an invigorating Vichy rain shower to remove the salt, leaving your skin glowing and toned. Especially effective prior to a body massage.

Algae Body Wrap (allow 60 minutes)\$90
 This remineralizing treatment begins with a gentle body brushing to rid your skin of dead surface cells. Then a layer of seaweed is slathered over your entire body and you are cocooned in a thermal blanket neck to toes. This treatment penetrates your skin, increasing circulation and replenishing lost minerals as it detoxifies, invigorates and energizes. The algae is rinsed using a Vichy rain shower and a moisturizer finishes the process.

Rejuvenating Mud Treatment (allow 45 minutes)\$90
 Indulge yourself as your body is slathered in a refreshing, detoxifying mud. Your body is wrapped in a thermal blanket so the mixture remineralizes your skin. To finish, the body mask is rinsed away under a gentle Vichy rain shower and a body crème finishes the treatment.

Herbology Body Experience (allow 60 minutes)\$90
 Your therapist will begin this treatment with a gentle massage using essential oils, followed by an exfoliating body polish with granulated Chinese herbs. After your skin is buffed, you are cocooned in warm thermal blankets. To complete this treatment, your body is misted neck to toes with refreshing aromatherapy water. An application of body crème finishes the process. It is designed to smooth your skin and reduce stress.
